

# **YOUNG PHOTOGRAPHER**

## **District 1210**

Primary Black and White winner 2018, Charles Dyble

### **Give it a try**

Your club will already do excellent work in your community but if your Youth Service team has not yet been involved in Young Photographer let me encourage you to do so. We have a system that may help you get started quite easily

### **The Benefits**

As well as providing an introduction to the visual arts through photography, there are other major benefits. Not all children can achieve academically. They may however discover that they can achieve success and increased self esteem through their own creativity. The competition and a subsequent optional presentation evening provides an opportunity to meet people and spread the Rotary message.

### **Easy Start**

We can help you to get started very easily. We have produced an Powerpoint presentation which can be emailed to you that can be used on a school laptop and be shown to a single class or a whole school assembly depending on time available. Very easy to present, expert photographic skills, whilst helpful, are not necessary. This is an interactive session intended mainly for primary schools. High schools would also benefit although we have a way of helping to get into those as well. Using experience gained over a number of years we can also supply tailor made templates for an introductory letter, the competition rules, entry forms, a results database and award certificates. We can advise on running inter schools competitions and preparation for the District competition.

### **Senior schools free gift**

If you are in the process of approaching Senior schools and Colleges we may be able to help you with this also. We have a limited number of books published by the Royal Photographic Society. These may be offered to a school and sit very well in their school arts library. If you would like a copy please contact me since numbers are limited and will be given on a first come first served basis.
